Project: Becoming a Self-Reliant Person

1) This is a major grade, intended to help students who will struggle with the essay or with the tests.
2) Get into groups of three. If there are extras left over at the end, we will put them in a group. No groups of two. No working alone.

Course of Action

1) Reread “Self-Reliance” on Edmodo or in the textbook.
2) Identify the characteristics of a self-reliant person (see example).
3) For each characteristic, list all the quotes in the essay that connect to that characteristic (see example).
4) You may also look up the entire essay online and use quotes from it.
5) Look up quotes from “Song of Myself” in the textbook or on Edmodo that connect to the characteristics. Create a list of them.
6) Describe the project you will create, along with what each group member will contribute.
7) Present your project.
8) Profit.
